

Power BI Training

IS YOUR ORGANIZATION DEPLOYING MICROSOFT POWER BI?

BlueGranite's hands-on, instructor-led training at your facility helps business and IT teams adopt Microsoft Power BI for self-service business intelligence and analytics. Up to ten attendees will receive expert-led guidance through a complete set of hands-on labs and training modules. After the training, attendees will be able to acquire data, build data models, and create visualizations quickly and easily with Microsoft Power BI.

Day 1: Data Visualization

Authoring activities in Power BI Desktop - create a report, interact with it, and upload it to the Power BI Service. Refine report layouts and publish to PowerBI.com for sharing and collaboration among teams.

Day 2: Data Modeling

Overview of data acquisition, data modeling, and security. Review business logic and calculations with DAX in a Power BI data model. Refresh source data and secure data and reports.

Day 3: Advanced Power BI

Advanced querying and data modeling capabilities. Review data modeling principals and advanced techniques. Understand complex DAX patterns along with Power BI tips and tricks.

Day 4: Kickstart Your Data (Optional)*

Participants will bring a dataset to the working session in order to co-build a Power BI solution. Training facilitator will help guide the development of Power BI reports using those datasets.

**Please note that adding on the optional 4th day will increase fixed cost.*

TRAINING OBJECTIVES

- *Learn how to create and share compelling data visualizations*
- *Gain an understanding in how to find and integrate data from more than one data source*
- *Discover how to enrich data with calculations and other features*
- *Get started with your own data and analytics needs through hands-on training*
- *Fixed cost for the training \$11,500 (3 days) to \$14,000 (4 days) which includes all travel, materials, and on-site sessions*

BLUEGRANITE
DATA • INSIGHTS • ANALYTICS

ABOUT US

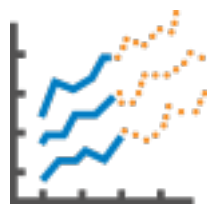

At BlueGranite we help our clients utilize data as a strategic asset, delivering data architecture and data integration solutions to drive insights and analytics across your organization. Our solutions monitor trends, measure performance, and provide real-time analytics for rapid, informed decision making. We leverage industry leading technology from Microsoft to build modern data platforms that reduce operating costs, increase market share, improve workforce efficiency, and so much more.

Gain a competitive advantage through the integration of multiple internal and external data sources, allowing your organization to uncover insights through straightforward, easy-to-use analytics solutions. When empowered with relevant and timely insights, you will be equipped to make better decisions, resulting in improved business performance. We're much more than technology specialists — we're trusted advisers. Our team's deep expertise and passion for what we do combined with our collaborative approach help you get the insights you need quickly and easily.

DISCOVER

Gain an understanding of use cases, vision and strategy for data and analytics; explore new and innovative solutions to gain insights from data and improve data availability. Through workshops, proof-of-value engagements, and QuickStarts, we can help you begin your journey.

CREATE

Make it real! BlueGranite will architect, build and deploy new BI and analytics solutions to address pain and realize the projected gain for your organization. We'll combine our deep experience with the latest tools for data and analytics for both cloud and on-premise scenarios.

REALIZE

Extend the value of your analytics solutions through support, maintenance, and enhancement. Change organizational culture through the establishment of a Center of Excellence complete with governance initiatives from data management to self-service BI.
