

# Azure Data Platform Workshop

## IS YOUR ORGANIZATION CONSIDERING A MOVE TO THE AZURE DATA PLATFORM?

This workshop introduces the Azure Data Platform, with a strategic overview, assessment, and kick-start proof of concept. With expert guidance from a senior BlueGranite consultant, this workshop helps organizations understand how the Azure Data Platform accelerates the responsiveness of your business by providing a secure, scalable environment for your data to support business intelligence, advanced analytics, and big data workloads.

After the workshop, attendees will understand architecture design options, technology components, and recommended first steps for the Azure Data Platform.

## WORKSHOP OVERVIEW

### Day 1: Data Platform Overview

Learn about massively parallel processing (MPP) architecture. Glance Expert-led presentation of business and technical integration topics on the value of Azure Data Platform, and how it integrates with existing on-premises infrastructure for hybrid cloud scenarios.

### Day 2: Readiness Assessment

Assessment of current data infrastructure and analytical capabilities, data sources, cloud resources, and infrastructure support. Readiness report of finding and actionable recommendations.

### Day 3: Kick-Start Your Cloud

Collaborative session to build a sample Azure data platform architecture. Hands-on integration of cloud services with on-premises infrastructure, showcasing Azure technologies from Microsoft.

## WORKSHOP SUMMARY

- *Gain an understanding of how the Azure Data Platform can accelerate your organization's goals*
- *Learn how to provide a secure, scalable environment for your data to support business intelligence, advanced analytics, and big data workloads*
- *Kick-start your cloud with a hands-on demonstration and integration of cloud services for your team*
- *Funding available for qualified clients*

## ABOUT US

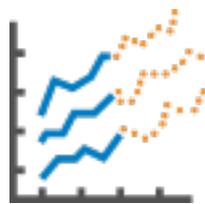

At BlueGranite we help our clients utilize data as a strategic asset, delivering data architecture and data integration solutions to drive insights and analytics across your organization. Our solutions monitor trends, measure performance, and provide real-time analytics for rapid, informed decision making. We leverage industry leading technology from Microsoft to build modern data platforms that reduce operating costs, increase market share, improve workforce efficiency, and so much more.

Gain a competitive advantage through the integration of multiple internal and external data sources, allowing your organization to uncover insights through straightforward, easy-to-use analytics solutions. When empowered with relevant and timely insights, you will be equipped to make better decisions, resulting in improved business performance. We're much more than technology specialists — we're trusted advisers. Our team's deep expertise and passion for what we do combined with our collaborative approach help you get the insights you need quickly and easily.

### DISCOVER

Gain an understanding of use cases, vision and strategy for data and analytics; explore new and innovative solutions to gain insights from data and improve data availability. Through workshops, proof-of-value engagements, and QuickStarts, we can help you begin your journey.

### CREATE

Make it real! BlueGranite will architect, build and deploy new BI and analytics solutions to address pain and realize the projected gain for your organization. We'll combine our deep experience with the latest tools for data and analytics for both cloud and on-premise scenarios.

### REALIZE

Extend the value of your analytics solutions through support, maintenance, and enhancement. Change organizational culture through the establishment of a Center of Excellence complete with governance initiatives from data management to self-service BI.
