

# DATEV Connector for Dynamics 365 Business Central

The DATEV Connector for Dynamics 365 Business Central supports you in reconciling your financial data from Dynamics 365 Business Central and your tax consultant or DATEV software. You can conveniently export financial data to the standardized DATEV pro format and transfer it directly to the tax office or to the DATEV software. The extension for Dynamics 365 Business Central also allows you to import DATEV data into Dynamics 365 Business Central.

Convenient export and import of DATEV data
