

Your problem of syncing GAL contacts to smartphones is solved.

Enterprise Edition shown

The screenshot shows the CiraSync web interface with several callouts:

- Full Metrics for Easy Tracking:** Points to the 'Tenant Coverage' section, which includes a bar chart for 'Last 30 days' and a pie chart. The bar chart shows metrics for: Phone Number(s) updated (1875), Text Field(s) updated (18872), Address Field(s) updated (3679), Contact(s) were added (2878), Contact(s) were modified (9269), and Contact(s) were deleted (522). The pie chart shows 'Up to date' (green) and 'Never updated' (black).
- Automation:** Points to the 'Sync Status' and 'Schedule' sections. 'Sync Status' shows 'Last Update: Jul 28, 07:30 AM' and 'Next Update: Jul 28, 04:10 PM'. 'Schedule' is set to 'Daily, Time: 04:10 PM' and is 'Enabled'.
- Flexible, Complete:** Points to the 'Contact Lists' and 'Calendars' sections.
- Granular Control:** Points to the 'Contact Collections' and 'Licensing' sections. 'Contact Collections' lists 'All Mailboxes' (168), 'DL in collection' (18), 'Solo2+Max_mailboxes' (2), 'Sub-collections' (18), 'Collection 1' (13), 'Collection 2' (13), and 'Solo Demo2 only collection!' (1). 'Licensing' shows 'IN USE' (3), 'AVAILABLE' (17), 'NOT LICENSED' (9), and 'RENEWAL' (1).

The interface also includes sections for 'Auto-License' (Enabled), 'Reporting' (Enabled, Recipients: Solo Demo2), and a 'Mailboxes' table at the bottom.

NAME	EMAIL	UPDATED ↓	ELAPSED	CONTACTS	LICENSE
Solo Demo6	SoloDemo6@itrezzoHQ.onmicrosoft.com	07:32 am 28 Jul 2016	00:02:27	201	✖
Solo Demo2	SoloDemo2@itrezzoHQ.onmicrosoft.com	01:25 am 28 Jul 2016	00:04:56	847	✔

“CiraSync is completely transparent to Office 365 users. The ease of use is tops, setup is very quick, and we love the accuracy.”

Brian Schultz, System Engineer, TeamLogic IT

Syncs contacts from the Office 365 GAL, Public Folders, and CRM systems to smartphones. A trial of CiraSync Personal Edition takes two minutes to deploy.

“CiraSync is new technology,
with a rich interface,
very quick and easy to maintain.”

Joe Jerebic, Kismet Solutions

Scales to thousands of users

Transparent to users, designed to simplify life for IT professionals.

- ✔ **Automation.** With CiraSync, there’s no need to push a button to sync or when a new employee joins the company. Just “set it and forget it.”
- ✔ **No clutter.** Company GAL overflowing with legacy contacts, test mailboxes, or service accounts? CiraSync sorts and filters to avoid syncing unwanted contacts to mobile users.
- ✔ **Scale.** CiraSync grows with your company. It can sync thousands of contacts to thousands of users.
- ✔ **Flexible targeting.** CiraSync’s contact collections leverage existing GAL distribution groups, so you can just “point and pick.”
- ✔ **Incremental updates.** Minimize cellphone data costs by syncing only changed contacts. Incremental updates take less time and reduce the possibility of sync errors.
- ✔ **No server. No desktop. No client. No configuration.** One great advantage of a cloud solution is eliminating the need to install, configure, and maintain software.
- ✔ **No need for user training.** It just works.
