## Data Maru Inc.

Data Maru provides enterprise-grade, data-driven business intelligence solutions. We are a Microsoft certified Data Analytics Silver partner. Key areas of expertise include:

- Defining key business metrics and translating requirements into effective data visualization and dashboards.
- Deployment of Power BI solutions with dynamic row-level security (RLS).
- Advanced analytics solution with R and Azure Machine Learning.

Past and current customers include:

- Microsoft for key metrics dashboard for Microsoft Investor relation site.
- Ballmer Group for interactive financial statements for US federal, state, and local governments with 70 different data sources including the US Treasury Department, the US Census Bureau, and the Federal Reserve [\[link\]](#).
- LA Clippers for player trading dashboard with data integration from NBA and third-party APIs.

Data Maru offers solutions for corporate finances, supply-chain, health insurance, IT infrastructure, and more.
