

User Guide

- 1) Install solution to Dynamics CRM.
- 2) In the solution's configuration, register your company.

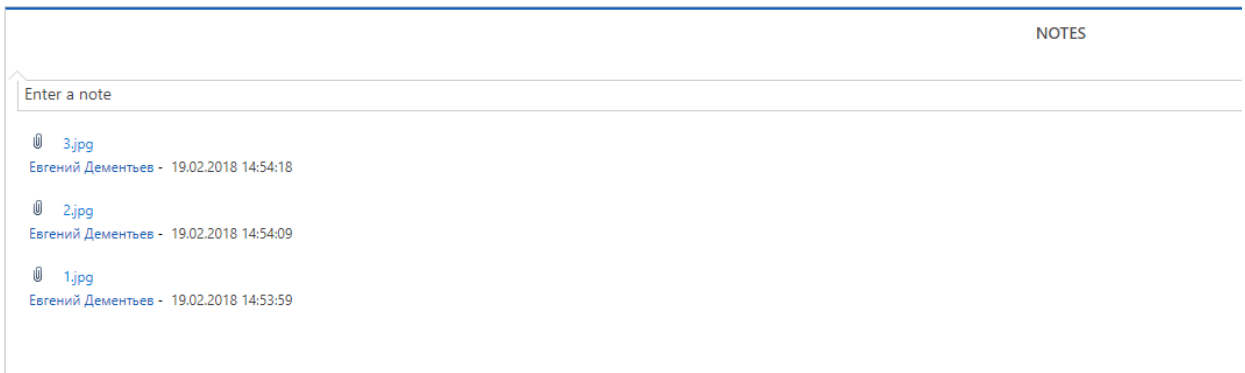

The screenshot shows the configuration interface for a solution named "Listing Portal" in Microsoft Dynamics 365. The browser address bar indicates the URL: <https://testlisting.crm4.dynamics.com/tools/solution/edit.aspx?id=%7b47656482-7D37-412A-87A4-1817CC9B89AE%7d>. The interface includes a top menu bar with "File", "Close", "Show Dependencies", and "Actions". A yellow warning banner states: "You cannot directly edit the components within a managed solution. If the managed properties for solution components are set to allow customization, you can edit them in the Customizations area or from another unmanaged solution." The left sidebar, titled "Solution Listing Portal", contains a tree view with categories: Information, Configuration (selected), Components, Entities, Option Sets, Client Extensions, Web Resources, Processes, Plug-in Assemblies, Sdk Message Processing St..., Service Endpoints, Dashboards, Dialog Boxes, Reports, Contract Templates, Security Roles, Field Security Profiles, Custom Controls, Virtual Entity Data Providers, and Virtual Entity Data Sources. The main content area features the "Dynamica LABS" logo and several form fields for configuration: "Company*" (Company name), "First name*" (First name), "Last name*" (Last name), "E-mail*" (E-mail address), "Main Phone:" (Phone number. Digits only), and "Address 1:" (Your address). The status at the bottom left is "Status: Existing".

3) Go to the navigation - Sales - Catalog items list

4) Create new record. Choose industry and fill in the fields. After creation, add photos at "Photos" section.

Photos

5) Publish your catalog item to Listing Portal.

Publication takes maximum a few minutes.

6) After that, reload page. And go to link of listing at portal.

7) You can also update, unpublish or remove listing from portal.
