

# Business Central Premier - 8 Week Implementation

Dynamics 365 Business Central is an all-in-one ERP business management solution that helps you connect your financials, sales, service, and operations to streamline business processes, improve customer interactions, and make better decisions.

Some clients require more efforts from their implementation Partner than others based on the modules that are needed to be implemented and the knowledge of the client.

Our Premier Implementation Package builds upon the Enhanced Implementation Package and is perfect for organizations with an experienced bookkeeper or CFO/Controller that require core financial processing (General Ledger, Accounts Payable, Accounts Receivable, Bank Reconciliations and Financial Reporting).

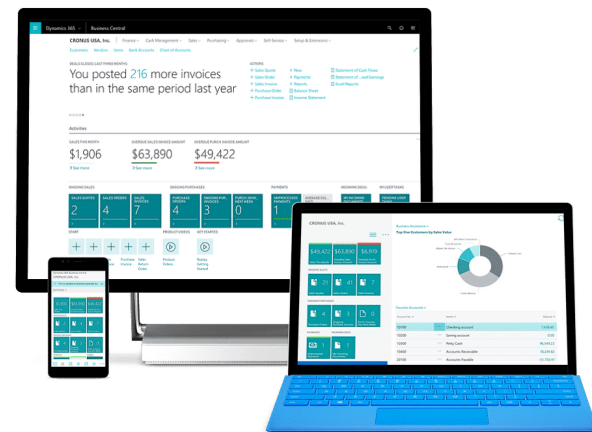

This package has us doing a majority of the work while working together with your team to assist as needed. Tools like the on-line documentation, wizards and videos will make it a bit easier for you to do this.

Remember that we can always be available for you if needed at an ad-hoc support fee in addition to the package.

**Estimated One Time Fee: \$18,000**
