## emPower™ Primer

.....

*2-Day Education & Envisioning Workshop*

.....

- Fast Track organizational knowledge
- Understand governance importance
- Develop a relevant application
- Identify priority applications

### ***Get Started with the Power Platform in a Way that Scales.***

emPower™ Primer is a 2-day workshop designed to help businesses get started with the Power Platform. If your organization is new to Power Apps or needs help envisioning relevant use cases, this workshop provides a great foundation for success. Day 1 of the Primer Workshop is focused on educating your organization about the platform capabilities and identifying suitable use cases. Day 2 builds upon this further as we get hands-on and build out one of the identified use cases leveraging the Power Platform.

## emPower™ Governance

.....

*2-Week Workshop & Implementation*

.....

- Enable Business and IT Co-ownership
- Establish key processes
- Enable citizen dev. within guidelines
- Support secure access: data, systems

### ***Focus on Governance & Key Processes Required to Support and Enable an Enterprise Deployment.***

emPower™ Governance is a 2-week initiative for organizations that have experience with the Power Platform and are looking to advance beyond individual apps toward enterprise adoption. This workshop dives deep into Governance topics that are critical for successful deployments of the Power Platform, adapts the governance model specific to your organization's needs, and delivers a roadmap for governance rollout.
