## Online or On-Premise

We give you the power of choice with the unique ability to switch between platforms anytime. You can even host and own Experlogix yourself and connect to CRM Online if needed.

## We Respect the Dynamics UI

No matter which version of Dynamics you use, Experlogix matches the look of each Dynamics version. Why is this important? It provides a natural transition from Dynamics 365 for Operations to CPQ for your users, shortens learning curves and increases user adoption. Wish we didn't match a specific version of Dynamics? We've got other skins to choose from or you can create your own.

## Improve Manufacturing Productivity

Experlogix combines with Dynamics 365 for Operations to form a powerful engineering and product management system, automating bill-of-materials, cost and routing determinations, and enabling dramatic cuts in manufacturing lead times.

## Define Stock Configurations and Kits

Streamline the quote and order entry process for your product lines with pre-built configurations and best practices. Use automatic up-sell and cross-sell messaging to increase your bottom line and profits.

## Build Rules & Formulas Fast

The Experlogix Design Center is a user-friendly workbench which allows non-technical users to create and maintain complex rules and sophisticated algebraic formulas – all without programming expertise.

## Dynamics Updates

If you're ready to take advantage of a new Dynamics 365 for Operations release, rest assured we support the new version – there's never a delay.

## Dynamics 365 for Operations

*“Experlogix has consistently been our strategic, go-to CPQ partner for Dynamics ERP. We're excited to have Experlogix CPQ as a Dynamics AppSource Marketplace solution.”*
