

# Direct Benefit Transfer (DBT) Management

Avoid month end stock and subsidy reconciliations.

**IDOS DBT Management enables you to minimize your subsidy leakage by tracking your stock position in the entire supply chain and enables timely filing of subsidy claims with government**

## Real-time update on stock position at wholesaler/retailer

IDOS creates a bridge between your ERP and iFMS (Integrated Fertilizer Management System – GoI portal) through Excel Add-in, automated workflows compares the deviation in stock levels and send alerts to field staff who in turn ensure that wholesaler/retailer acknowledges the stock receipts on time.

## Enhance process efficiency in DBT Management

- Real-time stock position and reconciliation with iFMS
- Send alerts to field staff on stock position and deviations with iFMS
- Manage accrual and filing of subsidies
- Increase efficiency in liquidating the slow and non-moving stock
- GPS enabled mobile application for field staff

## Avoid delays in reconciliations resulting in subsidy leakage

IDOS creates a parallel supply chain stock similar to iFMS to capture last mile deliveries of stock. Any deviation between iFMS stock and stock lying physically at wholesaler/retailer is notified and checked.

## Efficient management of working capital

IDOS ensures you are able to file accurate subsidy claims in a timely manner by addressing the issue of delayed acknowledgements by wholesalers and identifying end-sale to farmers. This results in faster subsidy realization.

## Stay mobile, manage remote access

GPS enabled IDOS mobile application ensures that field staff have remote access to all the required information and are diligent in conducting stock count at wholesalers/ retailers

**Monitor stock positions, identify slow and non moving stock faster**

**Avoid subsidy leakage and file timely subsidy claims**

**Manage remote access to field staff**

**The new DBT scheme has resulted in considerable delays in realizing fertilizer subsidies, mainly due to delay in acknowledgment of stock receipt by our wholesalers/ retailers in iFMS. With IDOS, we are able to take corrective course well in time and also identify the slow moving stock and retailers indulged in malpractices.**

Trust Grow Fertilizers Pvt Ltd

# IDOS connects iFMS to your ERP and lets you take control of subsidy realizations.

## IDOS integration results

- Unique solution for the fertilizer industry
- 68% reduction in working capital cost
