Project liaison ensuring  
we deliver requirements

**Danny Williams**  
Support & Managed  
Services Lead

Leads the support desk

# Experts in Azure

We're Microsoft Accredited Cloud solutions specialists who help businesses move to the cloud with confidence.

We manage cloud infrastructure, optimise performance, ensure scalability and resilience, all with your budget in mind.

Microsoft  
Azure

Azure is Microsoft's ever-growing collection of integrated cloud services that provide the freedom to build, manage and deploy applications.

# Experts in SharePoint

We're Microsoft Accredited SharePoint specialists who build and deploy successful intranets and websites since 2007.

We specialise in app and platform development, migration services, infrastructure and app health checks, cloud hosting, support, and consultancy.

SharePoint is a mobile, intelligent intranet that helps you share work, organize projects, manage business workflows, build apps and manage risk.

# Companies we've helped
