

Microsoft Dynamics 365 Business Central: 4-Week Implementation

IA

Time Required: 4 weeks

Cost: \$15,000

Description: The QuickStart Basic Implementation Package is for businesses that need financial accounting functionality. This package provides assistance with the provisioning of your Dynamics 365 Business Central instance, data conversion, module setup, and training. It is intended for a single legal entity with no required integrations to get up and running efficiently.

For organizations that need more than financial accounting, we also offer various QuickStart Deluxe Implementation Packages starting at \$30,000. These packages provide assistance with everything in the Basic Package, as well as options for Distribution (Sales Order/Quotes, Inventory and Purchasing), Jobs (Jobs Invoicing and Time/Expense), and Manufacturing.

Agenda:

- Week 1: Analysis of customer's requirements, System Design
- Week 2: Configuration of 1 entity in Business Central per design decisions, Import of Master Data
- Week 3: Training for end user(s), turn over system for testing
- Week 4: Final testing and adjustments to configuration, Begin Cutover of Open Documents
- Week 5 & 6: Go-live support

Deliverables:

- Modules to be implemented:
 - GL, AR / AP, Cash Management, Financial Reports: P&L Statement, Balance Sheet
- Imported Data:
 - Chart of Accounts, Customer Master and Open AR at Go-Live, Vendor Master and Open AP at Go-Live, 24 months of historical GL account balances.
