

DocumentsCorePack

for MS Dynamics CRM

DocumentsCorePack allows a fast and easy document creation based on CRM data. Based on MS Word-templates, the Server- and/or Client-based document generation provides you with a set of tools to create and process documents inside CRM.

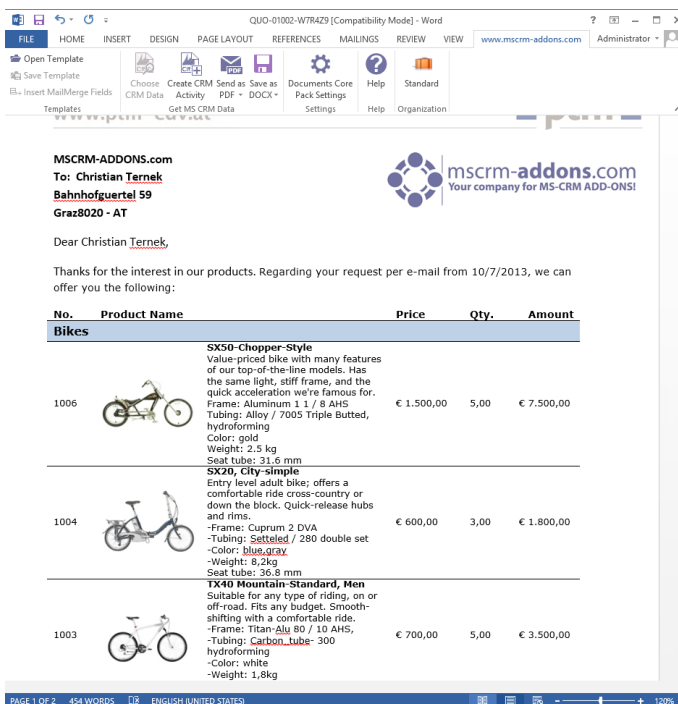

DCP Client-based: Template Designer

- MS Word integrated template design
- Standard and custom entities and attributes supported
- Dynamic filenames, activity subjects and save locations
- Password-protection and easy insertion of documents, pictures, HTML and QR-Code, ect.
- Computed Fields for basic arithmetical operations

DCP Server-based Document Generation

- No need for a client installation
- „Create document Button“: Custom CRM dialog for quick & easy document generation and processing on single and multiple records
- MS CRM Process-Integration: Perform document operations in workflows, dialogs or actions
- Documents can be generated as: doc, docx, pdf, txt, html, jpg, bmp and png
- „Send as pdf“, preview & edit functionality
- Document printing via Local and Google-Cloud-printers
- Saving documents to MS SharePoint
