

NAV-X COMMISSION MANAGEMENT

IMPLEMENTATION

SERVICES

You have requirements for commission calculations that Microsoft Dynamics 365 Business Central cannot fulfill. This is why we created our **Commission Management System** for Business Central. You can download it directly from Microsoft AppSource.

We stand behind our products and think that you can only use a product well and get the most benefits out of it, if it is setup properly and if you know how to use it. Therefore, we are offering fixed price implementation services for our Commission Management System.

We provide guidance during your setup via e-mail, up to 2 hour in total.
- **Guided import of initial data via Configuration Packages**
We provide guidance during your data migration via e-mail up to 2 hours in total.
- **Setup performed by NAV-X**
We work with you on a web meeting and go through the different setups and configuration possibilities to establish the setups that are most fitting for your business cases. This web meeting is limited to 2 hours and 2 participants from your company.
- **Import of data by NAV-X**
You provide us with the data. We will work collaboratively with you to identify the proper data elements and then import those into your test system. We will, once validated, move those into your live system. This is limited to one set of data and two data loads in total. Not to exceed 4 hours
- **End User Training**
We work with you on a web meeting and explain the functionality to you and answer any questions you have. This Web meeting is limited to a maximum of 2 hours.
- **Implementation Support**
We provide you with a maximum of 8 hours of support during and after go live. To ensure that your first commission run works flawlessly, we will work with you on the commission processing for the first time. The support hours expire 45 days after go live with Commissions.

ABOUT NAV-X LLC

NAV-X, with its roots deep in the rich history of Microsoft Dynamics NAV and Dynamics 365 in the North American market, is a publisher of functionality commonly required by distribution and manufacturing businesses, but unavailable in native NAV. Since 1996, our team has been developing this functionality and built a codex of Best Practice solutions. These solutions provide our partners and their clients with reliable and repeatable competitive advantages.
