SOLUTIONS

Intelligent systems to guide employees
in accessing and utilizing enterprise knowledge,
EHR data and compliance standards,
while protecting member, provider and patient rights

Neudesic can enable your organization to...

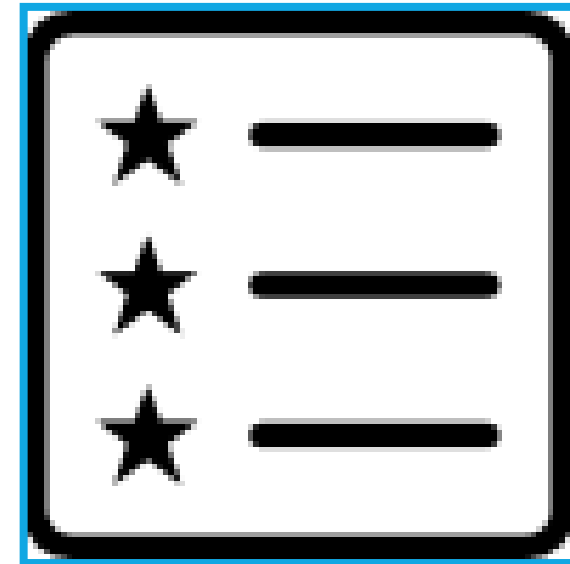

CREATING BUSINESS VALUE

Neudesic solutions deliver measurable results including...

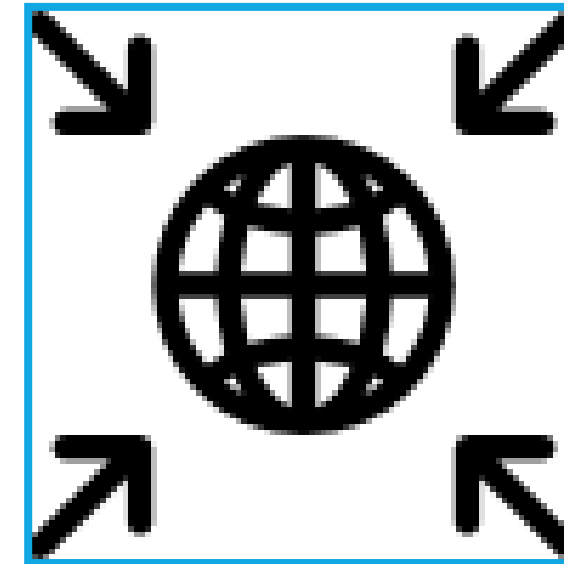

- Ensuring information is always available and up to date
- Online access to data for easier case management
- Maximizing investments by integrating existing systems

Case Management Tracking & Reporting

MEET REPORTING REQUIREMENTS

Neudesic helps healthcare organizations meet service level agreements and reporting requirements by providing quick and easy access to member data.

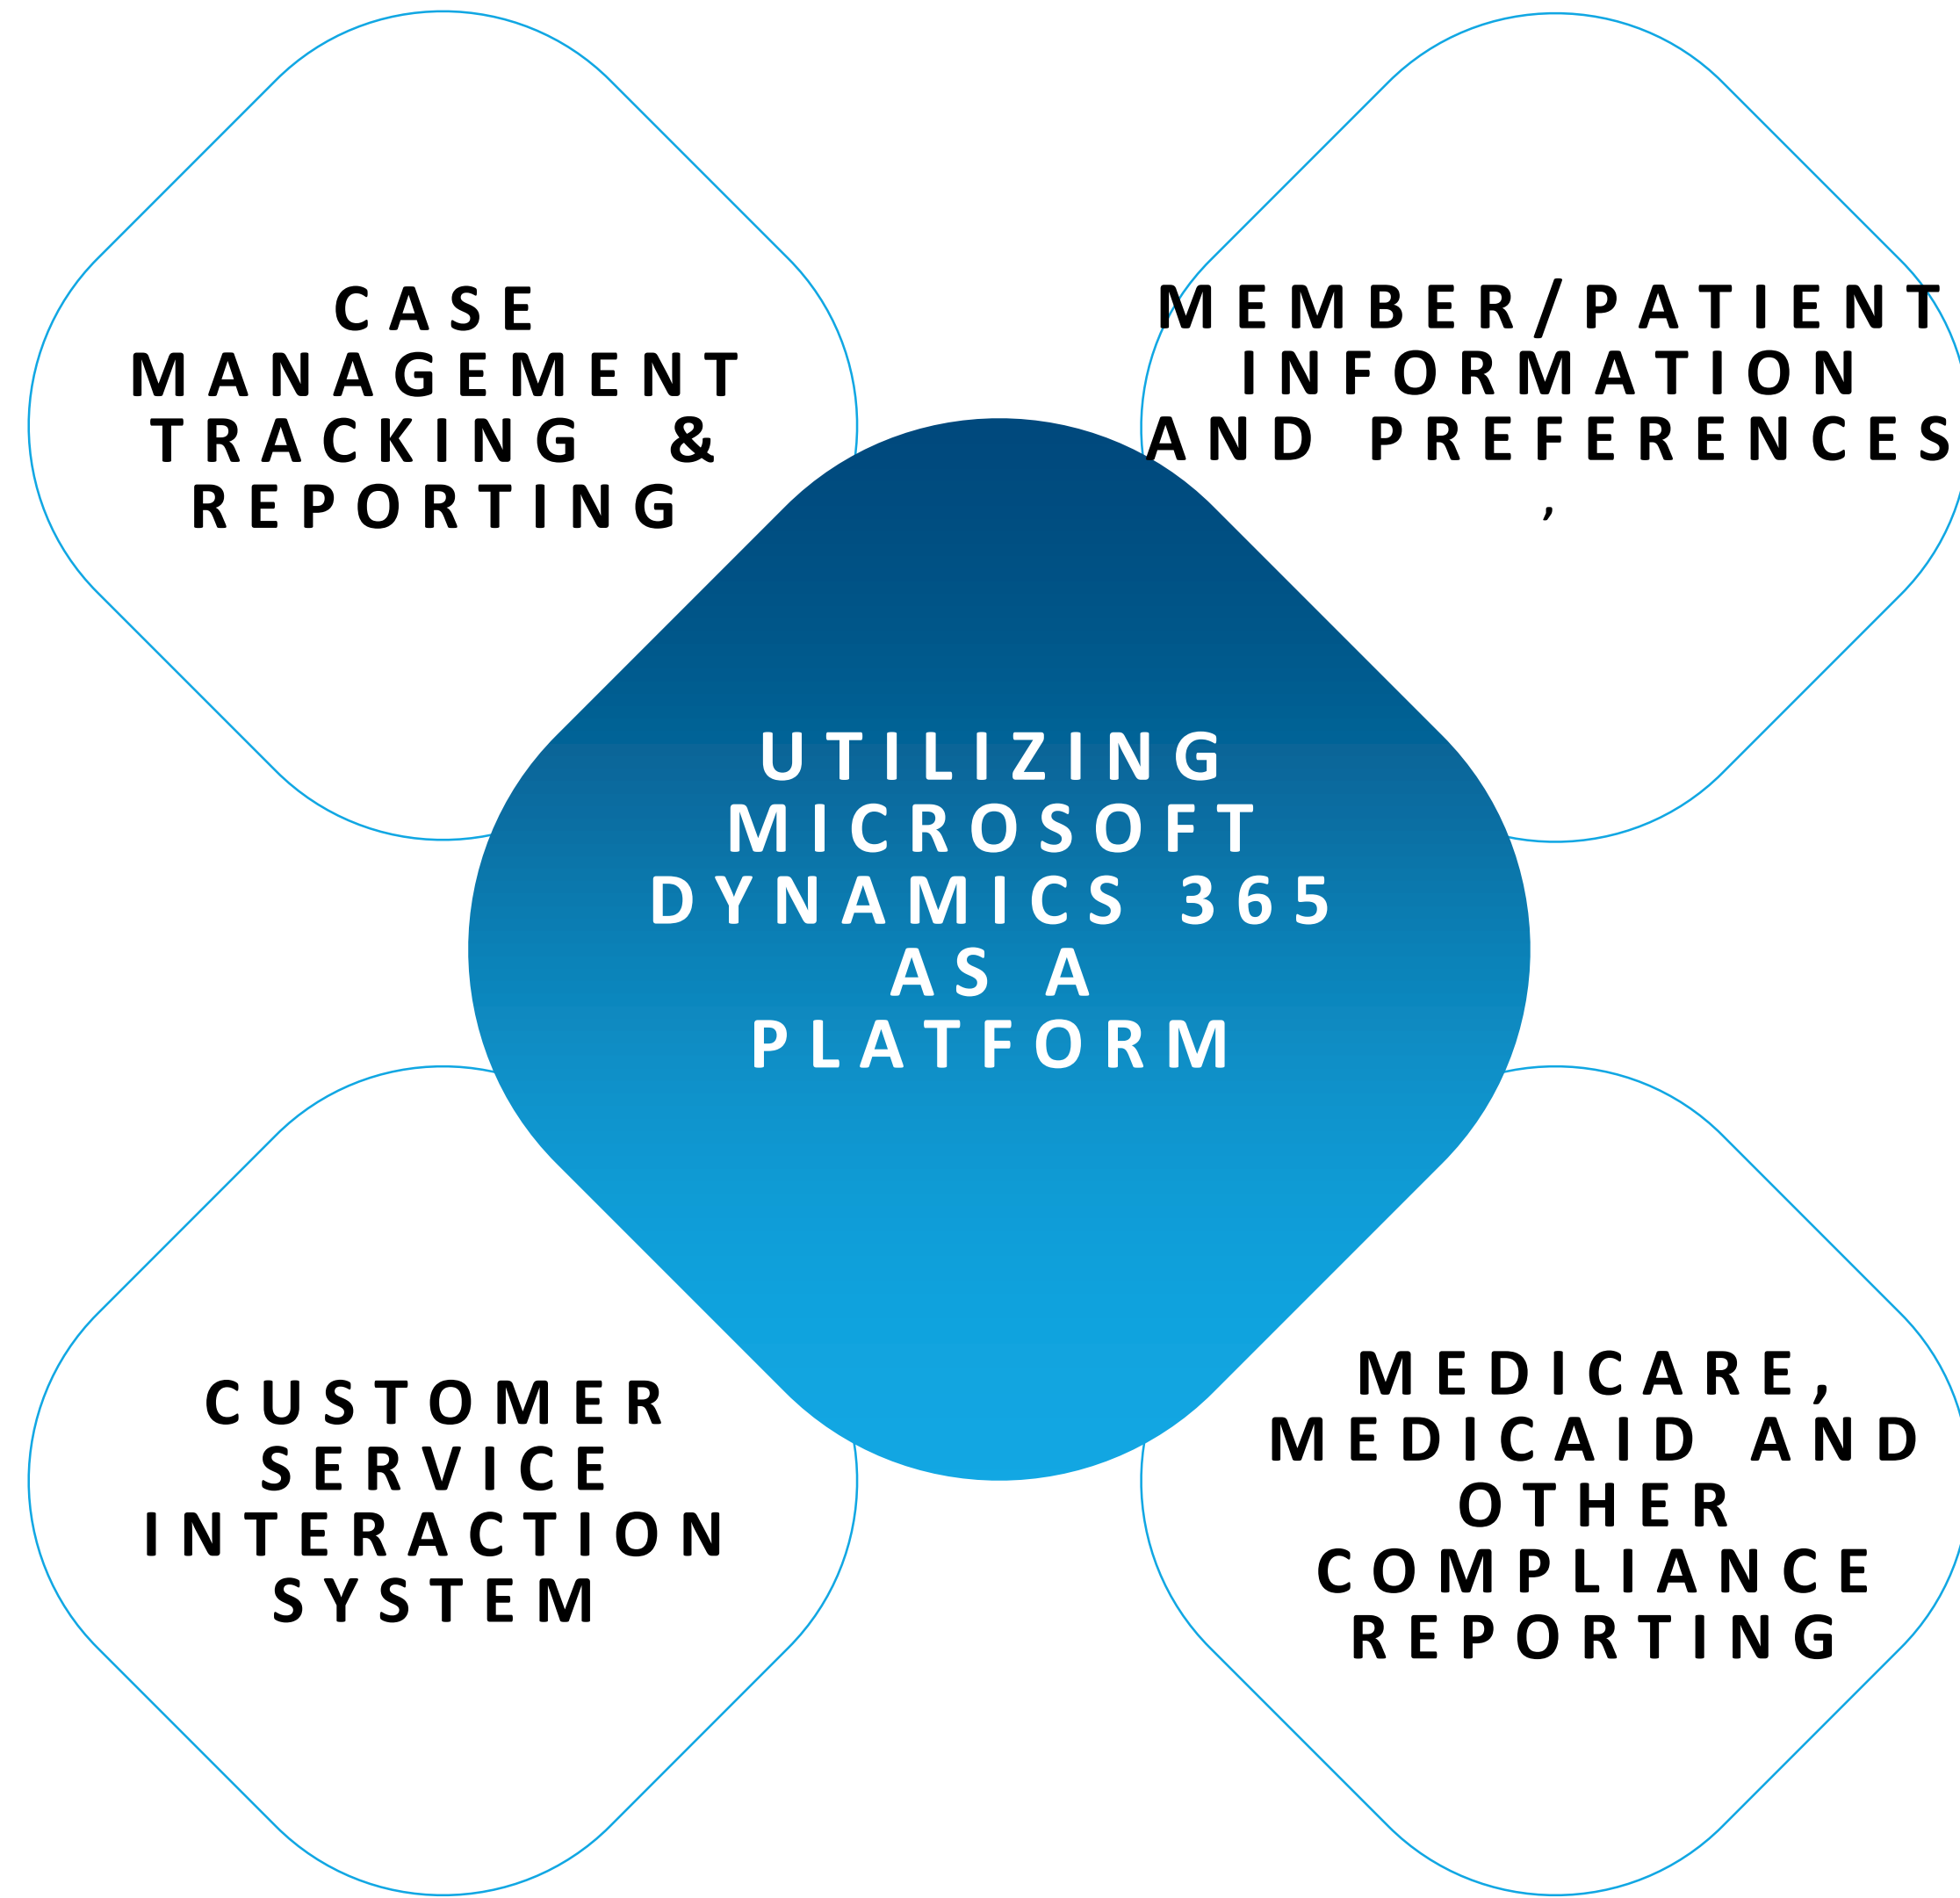

MULTI-SOURCE CASE DATA

Comprehensive case life cycle management allows outreach to multiple resources, such as EHRs, to resolve issues and provides robust tracking and reporting of case activity.
