

Partnering with Plus Microsoft Dynamics CRM

As a **Microsoft Gold Managed Partner** with resources both nationally and globally, Plus Consulting has assisted clients across various industries and demographics for nearly 20 years.

Our team of Dynamics experts are Microsoft certified and experienced in delivering complex Microsoft Dynamics CRM solutions, often including platform extension to ensure the solution aligns with our clients' specific needs. We have successfully completed over 150 Dynamics CRM projects for our clients and partners, including:

- Migrations
- New System Implementations
- Upgrades
- System Salvage Projects

With competencies across the Microsoft technology stack, we regularly work hand-in-hand with Microsoft teams across the globe to envision, design, and deliver solutions for clients. Numerous Plus team members have been qualified through the **Microsoft P-Seller (Partner Seller) Program** (formerly the VTSP Program), a select group chosen from the elite in the MS partner community to deliver pre-sale activities and resources to empower customers and help them meet their solution and integration needs.

The Plus delivery team has partnered with **Microsoft Consulting Services (MCS), Softmart, and Endowance** to help clients plan their deployment—whether on-premises, in the cloud, or in hybrid environments. We ensure efficient deployments through collaborative planning built on best practices and proven methodology. We pride ourselves on being an extension of our clients' IT staff, providing expert advice as on-site deployment planning specialists.

Taking our commitment to delivering complete solutions a step further, the Plus team frequently works with companies with complementary services, including marketing automation providers like **ClickDimensions** and **Salesfusion**.

ABOUT PLUS

Strategy. Process. Planning.

Essential words in business, and ones at the core of Plus Consulting's methodology for nearly 20 years. Our clients depend on us to have a deep understanding of their industry, their business, and their people as an essential part of every project. We believe in identifying the "why" before proposing the "how." The team at Plus Consulting: **Business savvy. Geek smart.**
