

PAFnow Process Mining Self Service Proof of Concept Offer Details

PAFnow is a state-of-the-art Process Mining software, embedded into Microsoft Power BI. PAFnow automatically learns how your business process works and detects any hidden deviations.

With PAFnow, you can visualize and analyze every end-to-end process. PAFnow Premium is a Process Mining Application for analyzing the performance of every end-to-end process (time, quality, cost). PAFnow PREMIUM has been designed for users, who wish to start analyzing their business straight away.

PAFnow PREMIUM comes with 10 PAFnow Process Mining Custom Visuals for Power BI, delivering a process centric view on data as well as 11 prebuilt Process Mining dashboards allowing for process discovery, difference analysis, benchmarking, conformance check, re-work analysis and many more.

A Preview of PAFnow PREMIUM can be [found here](#).

PAFs Self-Service Proof-of-Concept gives you the opportunity to test-drive PAFnow PREMIUM with your own data inside your existing Power BI Reporting infrastructure.

Key Deliverables

PAFnow PREMIUM will be made available for the period of 4 weeks. PAFnow PREMIUM is coming with prebuilt Process Mining-specific dashboards, enabling you to visually analyze and directly improve any of your own business processes. PAFnow Standard Reports contain out-of-the-box report pages, such as:

- ✓ Process Discovery
- ✓ Conformance Check
- ✓ Benchmarking
- ✓ Difference Analysis
- ✓ Monitoring
- ✓ Variants
- ✓ Loops (Re-Work)
- ✓ Automation
- ✓ Lead Times
- ✓ Process Steps
- ✓ Compliance Analysis

PAFnow Process Mining works by measuring key metrics in data from operational business processes. At PAF we believe, Process Mining benefits everyone, not just companies striving for process excellence. Use PAFnow inside your existing Power BI reporting infrastructure and stand a better chance of getting the advice you need to analyze and improve your business processes.

PAFnow Process Mining covers all essential questions about the performance and compliance of any process based on your own data and with the help of flowchart visualizations fully embedded in Microsoft Power BI. Feel free to use PAFnow Process Mining PREMIUM for a Self-Service Proof-of-Concept for the period of 4 weeks.
