

SESSIONS

- Microsoft SKYPE
- Video Meeting
- Short 2 to 3 Hour Sessions
- Training and Tutoring

DEDICATED INSTRUCTOR

- Each program has a dedicated instructor
- Additional support staff help

JOURNEY

- Becomes an awesome ninja
- Must defend the weak
- Follow orders or follows heart

INSTRUCTOR TRAINING

Sabre Training Methodology

Our Dynamics 365 Business Central training programs are designed specifically for Manufacturing companies planning to use D365 BC (or Dynamics NAV 2018) in a standard manufacturing environment. We use a methodology that combines instructor led, online, structured unit based project deployment and a laser like focus on manufacturing to deploy rapid and cost effective implementation training.

HOMEWORK

PREREQUISITES

GENERAL LEDGER

- Your Chart of Accounts
- Settings Decisions

QUIZZES AND EXERCISES

- Quizzes to test employee knowledge
- Homework Exercises to ensure practice

DATA PREPARATION

- Spreadsheets supplied for Customers, Vendors and related data

STUDENT ENGAGEMENT

- Students need to invest the time and energy.
- Leadership needs to monitor student progress and step in when needed

OUT OF THE BOX

- Executive Mandate that customization be eliminated or excluded in Phase 1.
- If your D365 BC or NAV system requires customization, additional training costs will be incurred also to add the customization's to the curriculum.

ONLINE TRAINING

CURRICULUM

- Web based Student portal
- Reading, Video and Practice
- Focus on Advanced/Less Used Topics
- Leave Core to Instructor

ALTERNATIVE INSTRUCTOR LED

All on-line student training may be optionally (for a fee) converted to instructor led training, although we always recommend that all students still complete the in-line training even if they have received live instructor training.

GOAL

- Save money by letting students self-educate
- Ensure student engagement through feedback and reports
- Use Microsoft Curriculum where possible
- Augment with Sabre Curriculum
