DIGITAL TRANSFORMATION FIRSTLINE WORKERS

Many organizations across the world are struggling with getting firstline workers onboard the digital transformation and getting them to adopt Office 365 for file-sharing and collaboration.

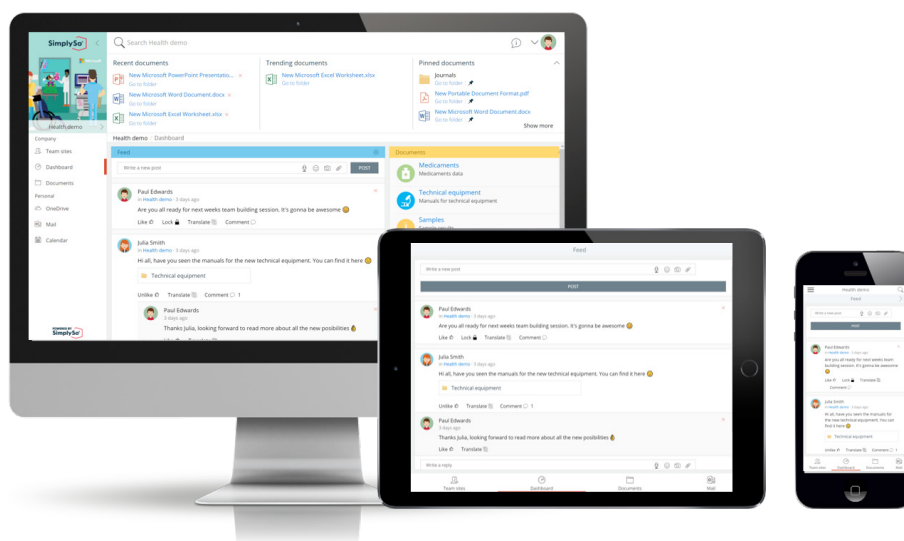

The SimplySo UI allows firstline workers to work effectively on the Office 365 infrastructure

A simplified and customized user experience is key to a productive, collaborative and GDPR compliant firstline workforce and will effectively free time for value creating activities in the organization.

WHAT IS SIMPLYSO?

SimplySo is a simplified UI for Office 365 that provides intuitive access to SharePoint Online and OneDrive content. An extensive range of Office 365 based widgets can be customized to fit specific department needs. Everything in one simple UI that rely on Office 365 user administration, data governance, and security.

The SimplySo UI runs in any browser or as a plug-in for Microsoft Teams, or as a desktop application. For PC, MAC, tablet or smartphone. The desktop application can show local drives and file-shares aswell.
