

Sparkrock helps nonprofit organizations leverage technology effectively to deliver on their missions of improving the quality of life for people, families and communities.

Sparkrock 365 for nonprofit organizations

Sparkrock 365 is an all-in-one enterprise resource planning (ERP) solution specifically designed for nonprofit organizations including community services, associations, faith-based, and more. Delivering an easy user experience to manage finance, accounting, and human resources processes, including procurement, tangible capital assets, expenses, find out what you can achieve with technology purpose-built for your needs.

Sparkrock 365 helps you streamline your processes and reporting to allow your organization to focus on your mission and serving your community.

Sparkrock's integrated finance, accounting and HR solutions streamline and automate processes and reporting allowing organizations to serve their stakeholders with less cost and less stress.

Problem #1. Organizations are using multiple solutions, integrations and workarounds to address increasing complexity

Reduce administrative burden, meet compliance reporting requirements, enhance employee productivity & satisfaction, and focus on better serving your community.

“Our integrated Sparkrock solution helps us to be increasingly transparent. Because the solution provides us with real-time data and insights, we all have a clear perspective on how we’re doing, and where we can make improvements. Because we’re working with taxpayer’s money and the goodwill of people, we must ensure we’re transparent and accountable as stewards of public funding.”

- Marwan Ismail, Executive Director, Polycultural Immigrant and Community Services

Problem

How to best manage the growing complexity of finance, HR, payroll, and scheduling, while confronting shrinking budgets and growing mandates for stricter accounting and reporting standards.

Client Solution

Native to the cloud, Sparkrock 365 was designed to close the gap between the commercial and nonprofit sectors. Get the functionality you need when you need it, instead of relying on complicated workarounds or third-party integrations.

Sparkrock 365 helps you gain control over your finances, make better business decisions, and reduce organizational risk, while simultaneously managing and engaging with your human resources effectively through the mySparkrock portal that supports automated purchasing and procurement, efficient payroll, and rich HR processes.

Problem #2. Lack of access to data mean reporting and data-driven decision making are a constant challenge.

Sparkrock 365 helps you regain visibility of your data thanks to an integrated system and purpose-built reporting tools.

15%
of nonprofits have access to real-time data*

Problem

Many organizations struggle to manage, view, and react to data in real time, leading to uninformed decision making and reports that take days or weeks to put together.

Client Solution

Bring the power of a single-source of information and the latest reporting tools to your finance and HR teams with Sparkrock 365. The easy of use and Microsoft's familiar and intuitive interface means access to the details you need to make decision is simple. With appropriate security, everyone has access to the information they need - and only the information they need.

Problem #3. End-of-life and outdated technology puts additional pressure on already stressed finance and HR teams.

The last upgrade you'll ever do. With technology built on the Microsoft intelligent cloud, be confident that you are using the best available technology and the latest version.

According to a study conducted by the Aberdeen Group, organizations saw a 22% reduction in operating costs and a 20% reduction in administrative costs after implementing an ERP solution.

Problem

The need to manage, maintain, and upgrade technology outpaces your internal IT and change management expertise so you are stuck on outdated solutions that cause as many problems as they solve.

Client Solution

Do more with less and empower your back office teams with technology that is always up to date and aligned with your organizational goals.
