

Case Study

Communications

**PRO
COMM**[®]
MODULAR
PROJECT SPACES

Procomm Site Services is a forward thinking modular building company formed in 2002 with a management team with over 100 years' industry experience providing national coverage from 4 strategically placed depots.

Procomm chose to collaborate with StaffCircle to immediately implement the communications module of the employee engagement platform.

StaffCircle communications provides Procomm employees with consistent and easy access to internal communications using mobile phone, pc, laptop, or tablet.

Procomm employees are able to respond to communications via likes, comments and photos allowing the management team to evaluate the content that creates the highest level of engagement.

Messaging can be directed to relevant departments, teams, sites or individuals and push notifications mean that employees no longer have to check for new content.

'StaffCircle provides our business with an internal communications system which connects all our employees, desk and non-desk based, improving communications across the entire organisation.'

Nik Wood, Operations Director, Procomm Site Services

Improve worker
engagement and
information
attainment

Reduce employee
attrition

Increase in workforce
morale and
productivity
