

Microsoft Dynamics AX 2012 to Dynamics 365 3-Wk Migration Assessment

Microsoft Dynamics 365 for Finance and Operations is the most advanced cloud ERP solution from Microsoft and offers an easy path forward for existing customers of Microsoft Dynamics AX.

Sign up for a three-week migration assessment and learn how you can leverage your existing Dynamics AX investments and minimize your costs in migrating to Dynamics 365 for Finance and Operations. Our assessment incorporates your various stakeholders to identify the functional and technical gaps between your current solution and Dynamics 365, providing you a complete roadmap to the cloud.

Agenda

- Functional Assessment
 - Perform business analysis
 - Evaluate "As-is" processes
 - Identify "To-be" processes
 - Identify potential functional risks
 - Define implementation backlog state
- Technical Assessment
 - Review your current Dynamics AX environment
 - Licensing, setup and configuration
 - Current modules, used vs. dormant
 - ISV installations
 - Integrations & customizations
 - Data mapping
 - Performance analysis

Deliverables

- Recommended approach for ISVs, customizations and integrations
- Technical and functional roadmaps for migrating to Dynamics 365
- Migration backlog definition
- Migration project estimate including cost and effort
- Customized "trade-in" discount for your old Dynamics AX licenses

Why Turnkey Technologies?

Voted Best in Reliability by St. Louis Small Business Monthly, Turnkey Technologies is a Tier 1 Microsoft Partner focused solely on turning your most ambitious business goals into reality through Microsoft business solutions.

As monolithic, on-premise ERP solutions have evolved into flexible, cloud-based platforms, Turnkey has helped hundreds of companies stay ahead of these industry-driving trends. Let us help champion positive change in your organization and give your Microsoft Dynamics solution a lasting impact.
