

Microsoft Dynamics 365 Business Central Jumpstart for Finance

Turnkey Technologies is excited to present a jumpstart implementation framework to enable any organization to adopt Microsoft Dynamics 365 Business Central at a highly affordable price. Our rapid implementation methodology will enable you to deploy the functionality needed to improve and enhance your financial processes, and grow seamlessly as your needs expand.

This finance-focused Jumpstart implementation will allow you to manage your General Ledger, Accounts Receivables, Accounts Payables and Banking Processes, based on the best practices and standard functionality provided by Dynamics 365 Business Central.

Fixed-Price Jumpstart includes

- One Company Setup
- General Journals
- Chart of Accounts
- Financial Dimensions (Analytical Segments)
- Allocations
- Account Schedules (Financial Reports P&L, Balance Sheet & Trial Balance)
- Bank Account Management (Manual Reconciliation)
 - Check Generation (Standard Check Format)
 - ACH
- Multiple Currencies
- Basic Receivables
- Basic Payables
- Sales Taxes (configuration upload available, performed by customer)
- Up to 4 hrs training

Deliverables

- Dynamics 365 Business Central Production Environment with the functionality listed above
- Note - Workflows, Report Formats, Automatic Banking, Jobs, Requisitions, Warehouse Management, Inventory Management Trade & Logistics, and Power BI are not included, and must be priced as a Time and Materials project.
- Note - This implementation does not include system analysis, fit/gap process, system modifications or integrations, but are available if requested for additional fees.
