

Microsoft Dynamics AX to Dynamics 365 Migration Assessment

Microsoft Dynamics 365 for Finance and Operations is the most advanced cloud ERP solution from Microsoft and offers an easy path forward for existing customers of Microsoft Dynamics AX.

Sign up for a two-hour, complimentary fit-gap assessment, where a Turnkey expert will assess how you can leverage your existing Microsoft Dynamics AX investments and adjust your strategy to take advantage of Microsoft's advanced cloud capabilities.

Agenda

- Review your current Dynamics AX environment
 - Licensing, setup and configuration
 - Current modules, used vs. dormant
 - ISV installations
 - Integrations and customizations
- Review your goals for Dynamics 365 for Finance and Operations
 - Challenges in Dynamics AX
 - Business objectives for Dynamics 365 for Finance and Operations
 - Future goals for IT

Deliverables

- Recommended process improvements available in Finance and Operations
- Personalized roadmap of key steps to go-live on Finance and Operations
- Customized "trade-in" discount for your old Dynamics AX licenses

Why Turnkey Technologies?

Voted Best in Reliability by St. Louis Small Business Monthly, Turnkey Technologies is a Tier 1 Microsoft Partner focused solely on turning your most ambitious business goals into reality through Microsoft business solutions.

As monolithic, on-premise ERP solutions have evolved into flexible, cloud-based platforms, Turnkey has helped hundreds of companies stay ahead of these industry-driving trends. Let us help champion positive change in your organization and give your Microsoft Dynamics solution a lasting impact.
